Always the last Thursday of the month

Our Club

Our club is a group of people interested in recovering artifacts, coins, and other interesting items from the past and various historical research topics. Meetings are held on the last Thursday of every month at the back door behind Evangel Community Church on 76 Sandy Street in Chatham. Guests are always welcome. At each meeting members may enter their finds of the month in the Finds of the Month Competition. The programs consist of talks by club members or invited speakers, slide or video shows, artifacts displays or demonstrations of new products.

The club maintains a small library of books, magazines and maps, which may be checked out for one month.

Our club strives to improve the public image of detector users and other amateur historical collectors. We therefore abide by the Code of Ethics.

We can be contacted by email at
Info@ckmetaldetecting.com

Guest Speaker: No speaker this month

The guests were given a warm welcome and the club activities were explained to them. We tried to answer their questions as best as possible. Hopefully we did not confuse them too much.

July Fun Hunt:

We had 16 members participate in the hunt. The weather was perfect and everyone enjoyed the hunt.

August Fun Hunt

The August Hunt will take place in Erieau on Saturday, 29 August 9:00 am to 12:00

Grand Bend Weekend

7 people have confirmed that they will attend. The remaining spots will be offered to the London Club on a first come first served basis. **If anyone wishes to attend contact Julie A.S.A.P.**

Digging Tools

Con showed everyone the new digging shovel he purchased, Lesche Sampson Pro Digger,

Joke Of The Month

Q: Doctor, I've heard that cardiovascular exercise can prolong life. Is this true?

A: Heart only good for so many beats, and that it... Don't waste on exercise. Everything wear out eventually. Speeding up heart not make you live longer; it like saying you extend life of car by driving faster. Want to live longer? Take nap.

Q: Should I reduce my alcohol intake?

A: Oh no. Wine made from fruit. Brandy distilled wine, that mean they take water out of fruity bit so you get even more of goodness that way. Beer also made of grain. Bottom up!

Q: How can I calculate my body/fat ratio?

A: Well, if you have body and you have fat, your ratio one to one. If you have two body, your ratio two to one.

Q: What are some of the advantages of participating in a regular exercise program?

A: Can't think of single one, sorry. My philosophy: No pain... Good!

Q: Aren't fried foods bad for you?

A: YOU NOT LISTENING! Food fried in vegetable oil. How getting more vegetable be bad?

Q: Will sit-ups help prevent me from getting a little soft around the middle?

A: Oh no! When you exercise muscle, it get bigger. You should only be doing sit-up if you want bigger stomach.

Q: Is chocolate bad for me?

A: You crazy?!? HEL-LO-O!! Cocoa bean! Another vegetable! It best feel-good food around!

Q: Is swimming good for your figure?

A: If swimming good for figure, explain whale to me.

Q: Is getting in shape important for my lifestyle?

A: Hey! 'Round' is shape!

Well... I hope this has cleared up any misconceptions you may have had about food and diets.

And remember:

Life should NOT be a journey to the grave with the intention of arriving safely in an attractive and well-preserved body... But rather to skid in sideways - Chardonnay in one hand - chocolate in the other - body thoroughly used up, totally worn out and screaming "WOO-HOO, what a ride!!!"

AND.....

For those of you who watch what you eat, here's the final word on nutrition and health. It's a relief to know the truth after all those conflicting nutritional studies.

1. The Japanese eat very little fat and suffer fewer heart attacks than Americans.
2. The Mexicans eat a lot of fat and suffer fewer heart attacks than Americans.
3. The Chinese drink very little red wine and suffer fewer heart attacks than Americans.
4. The Italians drink a lot of red wine and suffer fewer heart attacks than Americans...

5. The Germans drink a lot of beer and eat lots of sausages and fats and suffer fewer heart attacks than Americans.

CONCLUSION: Eat and drink what you like. Speaking English is apparently what kills you.

Happy Detecting!
